## **DETAILED ACTION**

### ***Response to Arguments***

1. Applicant's arguments filed 12/27/2004 have been fully considered but they are not persuasive.

With regard to the applicants' argument that the well known feature of formerly claims 2 and 10 is unsupported by evidence (page 8, ln 17-19). The examiner would like to provide US Patent # 6,385,249 to Kondo et al to substantiate for his cited "well known feature". Fig. 4, ele. 2-3-4-6-7-8 and fig. 5 of Kondo et al read in light with the specification, col. 9, ln. 20 – col. 13, ln. 7 shows that the processor circuitry is arranged iteratively to calculate the prediction values used to calculate the prediction residuals by repeating steps.

### ***Claim Rejections - 35 USC § 103***

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1, 3-4 and 8-9, 11-12 are rejected under 35 U.S.C. 103(a) as being unpatentable over the article titled "Improvement of Picture Quality and Coding Efficiency Using Discrete Cosine Transform" dated June 1990, by Yuuji Izawa and Masaaki Takizawa as set forth in the previous Office Action.

### ***Allowable Subject Matter***

Art Unit: 2613

4. Claims 5-7 and 13-14 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
5. Claims 15-20 are allowed.

***Conclusion***

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
